Art Unit: 3711

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10 and 13-22, drawn to a hockey stick, classified in class 473, subclass 560.
- II. Claims 11, 12, 23, and 24, drawn to a method of making a hockey stick, classified in class 473, subclass 560.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the stick may be made by a laminating process.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
